Notification of Potential Concussion

Dear Parent/Guardian,

This is to notify you that your child has been involved in a potential/suspected injury to the head or body during participation, which could cause a concussion or other medical concerns.

Per the ICPRD "Acknowledgment of Concussion Information" that was signed prior to participation in this event, the following guidelines are in place for your child's safety:

1. Participant will be removed from the activity for a minimum of 24 hours.
2. Parent/guardian will provide the participant with a medical evaluation by a healthcare professional that is qualified to evaluate for concussions.
3. If diagnosed with a concussion, participant will follow any guidelines provided by the healthcare professional regarding medical care and return-to-play procedures. If symptoms increase or return after the player has followed the medical recommendations, additional care or modifications to participation may be necessary.
4. **The parent/guardian will need to provide the team coach/manager written notification from the healthcare professional regarding recovery procedures, limitations for activity, and/or clearance to play. Players will not be allowed to return to the activity without written permission from a medical professional.**
5. If not diagnosed with a concussion, the parent/guardian will still need to provide the team coach/manager with a copy of the medical permission form stating clearance to participate.

Parent Acknowledgment: I have been notified of the potential injury to my child and agree to follow the recommendations for treatment and recovery procedures.
